

## SJTW 300V Extension Cords

Our complete line of SJTW extension cords gives you an economical yet heavy duty cord suitable for most applications. Our cords come in 10, 12, and 14 gauge and are flexible from -40° to +140°.

They are available with standard U ground, twist lock, and triple tap connectors. Most of our cords have the "power check indicator" so you always know you're plugged in. We offer our cords in a fine selection of standard colors for easy identification, but there are several other colors to choose from...just ask!

Our SJTW is *the* choice of all types of contractors and maintenance departments nationwide.

## SJEOW 300V All-Weather Extension Cords

These extra heavy duty extension cords stay flexible under the most extreme conditions, hot or cold. Rated to stay flexible from -58° to more than 200°, these cords also resist damage from oil, water, and weather and are lightweight. They are available with standard U ground, twist lock, and triple tap connectors. Most have the "power check indicator" so you always know you're plugged in.
